RDC 10960

Frame Buggy "Dictator" 4WD

1/10 SCALE

- Complete 4 wheel drive.
- 2-channel super heterodyne digital proportional system.
- Front and rear dual damper.
- Front and rear wheel differential gear.
- Tandem motor system (2 RS-380SH motor are used.).
- 2 step forward and 1 step reverse electronic speed control system.
- Electronic torque splitting system.
- Front and rear wheel twin wishbone suspension.
- Low profile semi-pneumatic spiked tires.
- Removable crystal.
- Frequency: 27 MHz band, 6 frequencies.

- Batteries:
Vehicle 1 × Ni-Cad rechargeable battery pack (7.2V, 1200mAh) plus 4 × "AA" size alkaline (1.5V)
Transmitter 6 × "AA" size alkaline (1.5V)
- Packing: 4 PCS 4.1 CFT 11 KG

RDC 10970

Frame Buggy "Super Alex"

1/10 SCALE

- 2-channel super heterodyne digital proportional system.
- Thermostat protection for speed-control resistor (PAT. P.).
- Front suspension: trailing arm.
- Rear suspension: rigid axle.
- Shock absorber (front and rear): friction damper.
- Rear wheel differential gear.
- Removable cowling.
- RS540S motor.
- Frequency: 27 MHz band, 6 frequencies.

● **Batteries:**

Vehicle 1 × Ni-Cad rechargeable battery pack (7.2V, 1200mAh) plus 4 × "AA" size alkaline (1.5V)

Transmitter 6 × "AA" size alkaline (1.5V)

- **Packing:** 4 PCS 3.8 CFT 9.6 KG

RDC 10930

Frame Buggy "Bison F-10"

1/10 SCALE

- 2-channel super heterodyne digital proportional system.
- Thermostat protection for speed-control resistor (PAT. P.).
- Front suspension: trailing arm.
- Rear suspension: rigid axle.
- Shock absorber (front and rear): friction damper.
- Rear wheel differential gear.
- Removable cowling.
- RS540S motor.
- Frequency: 27 MHz band, 6 frequencies.

- Batteries:
Vehicle 1 × Ni-Cad rechargeable battery pack (7.2V, 1200mAh) plus 4 × "AA" size alkaline (1.5V)
Transmitter 6 × "AA" size alkaline (1.5V)
- Packing: 4 PCS 3.8 CFT 9.6 KG

RDC 10935

Frame Buggy "Thunderbolt"

1/10 SCALE

- 2-channel super heterodyne digital proportional system.
- Front suspension: trailing arm.
- Rear suspension: rigid axle.
- Shock absorber (front and rear): friction damper.
- Rear wheel differential gear.
- Removable cowling.
- RS380S motor.
- Frequency: 27 MHz band, 6 frequencies.

● **Batteries:**

Vehicle 1 × Ni-Cad rechargeable battery pack (7.2V, 1200mAh) plus 4 × "AA" size alkaline (1.5V)

Transmitter 6 × "AA" size alkaline (1.5V)

- **Packing:** 4 PCS 3.8 CFT 9.6 KG

NEW

RDC 14090

Frame Buggy "Super Fox" 4WD

1/14 SCALE

- 4 wheel drive with dual center-driveshaft.
- 2 channel full function: forward, reverse, turns left and right and stop. (The steering and motor power can be controlled separately.)
- 2 × 2 speed in forward running.
 - Turbo high-speed forward running from transmitter control.
 - High/low speed gear selector switch.
- Front and rear suspensions.
- Spiked tires.
- Recharging jack for Ni-Cad batteries.

- Batteries:
Vehicle 8 × "AA" size alkaline (1.5V) or Ni-Cad (1.2V)
Transmitter 1 × 9 volt (006P) alkaline
- Packing: 6 PCS 3.5 CFT 8 KG

THIS SWITCH IS EQUIPPED TO AVOID THE OUTSIDE INTERFERENCE WAVES AND KEEP A NORMAL CONTROL.

Pistol-Grip Transmitter.

RDC 14084

Frame Buggy "Black Fox"

1/14 SCALE

- Full function: forward, reverse, turns left/right and stop.
- 2 × 2 (in forward running):
 - Turbo high speed forward running from transmitter control.
 - High/low speed gear selector switch. (use only Ni-Cad batteries for H.)
- Front and rear suspension.
- Balloon tires.
- Recharging jack for Ni-Cad batteries.
- Batteries:
 - Vehicle 8 × "AA" size alkaline (1.5V) or Ni-Cad (1.2V)
 - Transmitter 1 × 9 volt (006P) alkaline
- Packing: 6 PCS 3.4 CFT 7 KG

NEW

RDC 16130

Frame Buggy "Venus"

1/16 SCALE

- 2-speed in forward drive (provided with turbo charger).
- Forward, reverse, right and left turn and stopping performances.
- Speed selector (high/low): high for plane surface and low for rough surface.
- Front and rear suspension.
- Balloon tires.
- Recharging jack for Ni-Cad batteries.

- Batteries:
Vehicle 8 × "AA" size alkaline (1.5V) or Ni-Cad (1.2V)
Transmitter 1 × 9 volt (006P) alkaline

- Packing: 6 PCS 2.9 CFT 7 KG

RDC 16100B

Frame Buggy "Turbo Panther"

1/16 SCALE

- 2-speed forward drive (provided with turbo charger).
- Forward, reverse, right and left turn and stopping performances.
- Speed selector (high/low): high for plane surface and low for rough surface.
- Front and rear suspension.
- Balloon tires.
- Recharging jack for Ni-Cad batteries.
- Batteries:
Vehicle 8 × "AA" size alkaline (1.5V) or Ni-Cad (1.2V)
Transmitter 1 × 9 volt (006P) alkaline
- Packing: 6 PCS 2.9 CFT 7 KG

RDC 18090

Frame Buggy "Thunder Eagle"

1/18 SCALE

- Full function: Forward, reverse, turns left and right and stop.
- Speed selector switch (high/low).
- Balloon tires.
- Recharging jack for Ni-Cad batteries.
- Batteries:
Vehicle 6 × "AA" size alkaline (1.5V) or Ni-Cad (1.2V)
Transmitter 1 × 9 volt (006P) alkaline
- Packing: 12 PCS 3.6 CFT 11 KG

RDC 20200

Frame Buggy "Top Cat"

1/20 SCALE

- Full function: Forward, reverse, turns left and right and stop.
- Speed selector switch (high/low).
- Balloon tires.
- Recharging jack for Ni-Cad batteries.
- Batteries:
Vehicle 4 × "AA" size alkaline (1.5 V) or Ni-Cad (1.2 V)
Transmitter 1 × 9 volt (006P) alkaline
- Packing: 12 PCS 2.5 CFT 8 KG

RDC 24201

Frame Buggy "Mini Panther"

1/24 SCALE

- Single functioned vehicle for the beginner.
- Forward, left turn in reverse running.
- Batteries:
Vehicle 2 × "AA" size alkaline (1.5 V)
Transmitter 1 × 9 volt (006P) alkaline
- Packing: 12 PCS 1.6 CFT 6 KG

RDC 10940

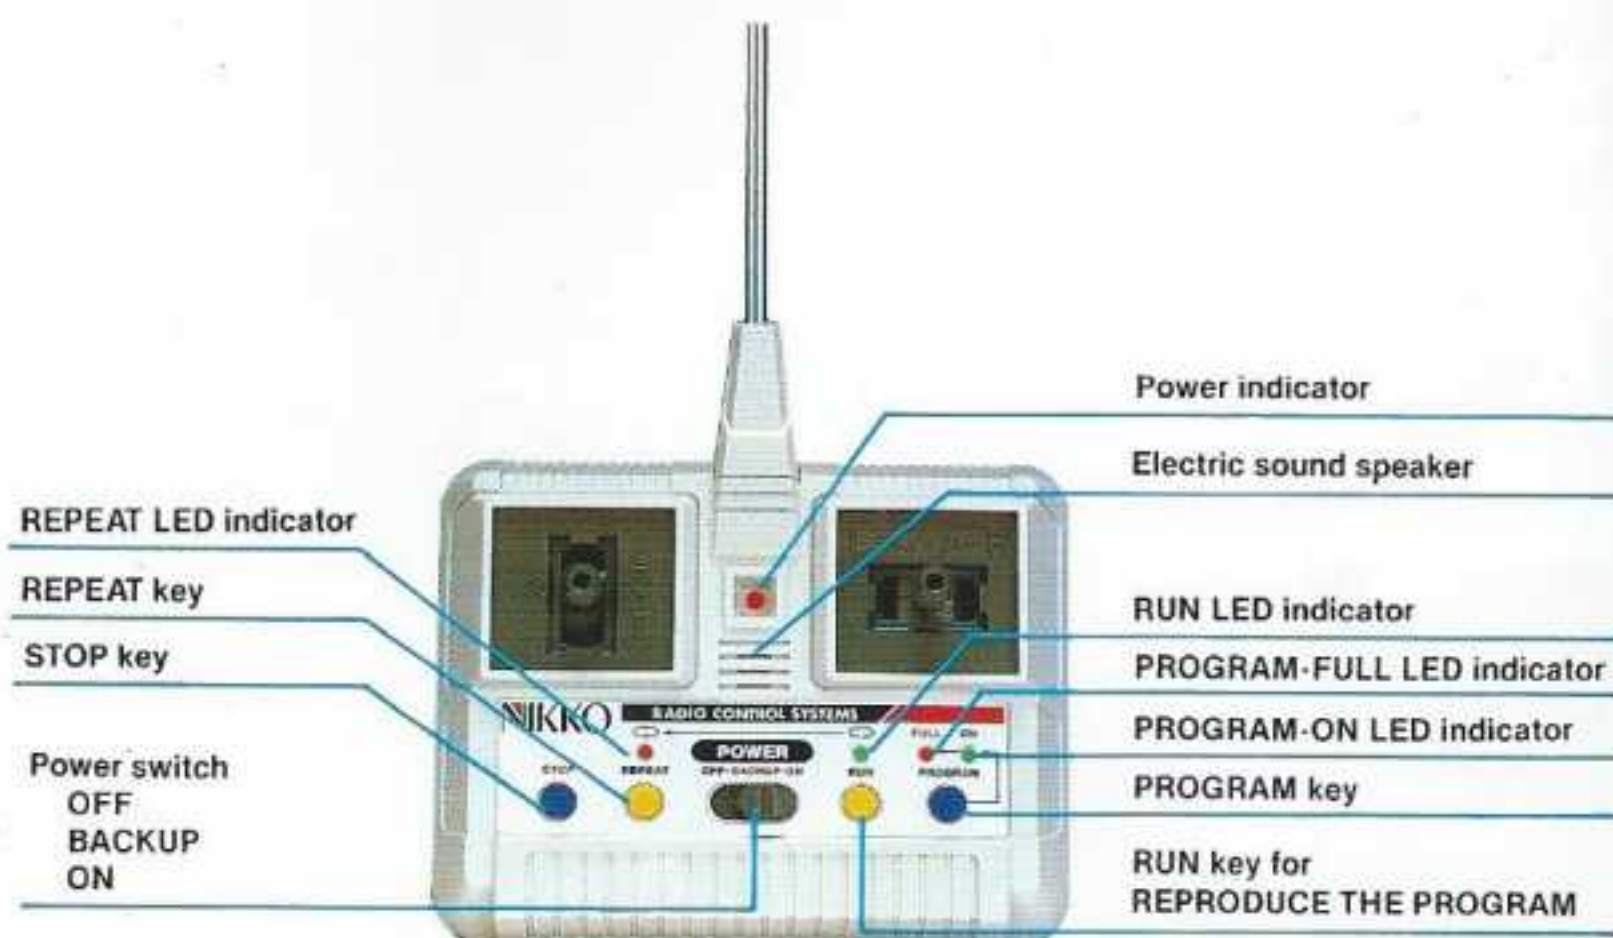

Hilux 4WD "Memory"

1/10 SCALE

- Micro-computer (C-MOS) built-in transmitter.
- Direct programming system.
(You have only to operate control levers.)
- Reproduces the programmed action.
- Electric sound speaker.
- Automatic switch off system in the transmitter.
- LED indicator in each mode (program, run and repeat).
- Runs forward/in reverse, turns right/left and stop.
- Driving mode (4WD/ 2WD) can be selected by a slide switch on the underside of car.
- Speed selector switch: high or low.
- Oversize air-filled tires.
- Headlights go on automatically when running.
- Recharging jack for Ni-Cad batteries.

- Batteries:
Vehicle 4 × "C" size Ni-Cad rechargeable (1.2V), plus
4 × "AA" size alkaline (1.5V)
Transmitter 6 × "AA" size alkaline (1.5V)

- Packing: 4 PCS 5.0 CFT 9 KG

RDC 9600B

Toyota Hilux 4WD

1/10 SCALE

- 4-channel digital proportional system with 6 bands
 - On and OFF of headlights.
 - Forward and reverse running.
 - Right and left turning.
- 4WD/2WD selector switch.
- Front wheel differential gear system.
- Recharging jack for Ni-Cad batteries.
- Removable wagon roof top.
- Dust free fitting for mechanical movement.
- Giant air-filled tires.

- Batteries:
 - Vehicle 4 × "AA" size alkaline (1.5V) and 4 × "C" size Ni-Cad (1.2V)
 - Transmitter 6 × "AA" size alkaline (1.5V)
- Packing: 4 PCS 5.8 CFT 14 KG

RDC 19600B

Malibu 4WD

1/10 SCALE

- Authentic 2-channel digital proportional system.
- Speed selector switch (high/low).
- Headlights go on when running.
- 6-bands of 27MHz available.
- Real 4WD system with front differential gear.
- Driving mode (4WD/2WD) can be selected by a slide switch on the underside of car.
- Recharging jack for Ni-Cad batteries.
- Perfect mud and dust protection for mechanical parts.
- Giant air-filled tires.

- **Batteries:**
 Vehicle 4 × "AA" size alkaline (1.5V) and 4 × "C" size Ni-Cad (1.2V)
 Transmitter 6 × "AA" size alkaline (1.5V)
- **Packing:** 4 PCS 5.8 CFT 13 KG

RDC 7700

Sand-Eagle C-5

1/10 SCALE

Heavy-duty offroad vehicle. It's exciting to climb hill, drive rough terrain and drive in high speed. 6-gear combination system.

- 4-channel super heterodyne digital proportional system.
- Doors automatically open and close—controlled by transmitter (TX).
- Headlights and taillights can be also lighted on and off—controlled by transmitter (TX).
- Battery on and off LED. Indicating lights are on both TX and Receiver (RX).
- Front-end suspension.

- Dust free fitting for mechanical movement.
- Recharging jack directly into vehicle to allow charging operation without removing batteries from compartment.
- Speed selector switch (high/low).
- Variable speed and reliable steering-forward, reverse and stop.
- Designed for real offroad driving with heavy-duty motor.
- Giant air-filled tires.

● **Batteries:**

Vehicle 4 × "C" size Ni-Cad (1.2V) and 4 × "AA" size alkaline (1.5V)

Transmitter 6 × "AA" size alkaline (1.5V)

- **Packing:** 4 PCS 3.4 CFT 9.4 KG

RDC 11600

Off-Road Tiger

1/10 SCALE

- 2-channel digital proportional system.
- Headlights automatically go on at forward travelling. The lights automatically go off at stopping.
- 3-speed gear shift system.
- Hollow spike tires for rear wheel.
- Front-end suspension.
- Recharging jack for Ni-Cad batteries.
- Dust free fitting for mechanical movement.

- Batteries:
Vehicle 4 × "C" size Ni-Cad (1.2V) and 4 × "AA" size Ni-Cad (1.2V)
Transmitter 6 × "AA" size alkaline (1.5V)
- Packing: 4 PCS 3.4 CFT 9.8 KG

Safari Star 4WD Winch

1/16 SCALE

- Oversize air-filled tires.
- Front wheel differential gear.
- Headlights go on when running.
- Speed selector switch: high or low.
- One removable jib.
- Winch can be controlled by transmitter.
- Full function: forward, reverse, turns left/right and stop.
- Recharging jack for Ni-Cad batteries.
- Batteries:
 - Vehicle 4 × "AA" size alkaline (1.5V) and 4 × "C" size alkaline (1.5V) or Ni-Cad (1.2V)
 - Transmitter 1 × 9 volt (006P) alkaline
- Packing: 6 PCS 5.3 CFT 12 KG

RDC 16035BS

Big Crawler 4WDS

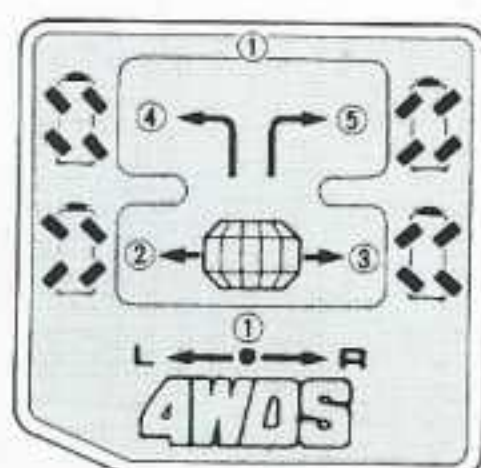

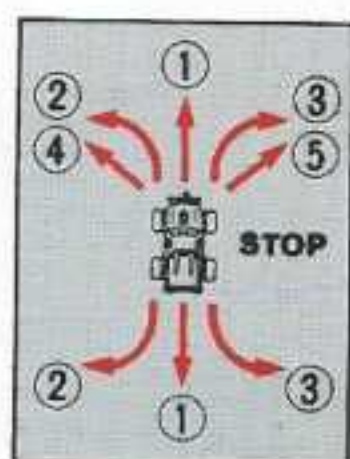

1/16 SCALE

- Power winch from transmitter control.
- Complete 4-wheel drive.
- Both front and rear wheel steer by transmitter.
- 2 type steering modes (cross and parallel) are operable by transmitter.
- Headlights go on when running.
- Speed selector switch: high or low.
- Recharging jack for Ni-Cad batteries.
- Differential gears for the front and rear wheels.
- Doubled terra tires.

- Batteries:
Vehicle 4 × "AA" size alkaline (1.5V) and 4 × "C" size alkaline (1.5V) or Ni-Cad (1.2V)
Transmitter 1 × 9 volt (006P) alkaline

Audi Quattro

1/24 SCALE

- Forward, reverse, right and left turn and stopping performances.
- Extra powerful motor.
- Speed selector switch (high/ low). High for plane surface and low for rough surface.
- Dust free fitting for mechanical movement.
- Batteries:
Vehicle 4 × "AA" size alkaline (1.5V)
Transmitter 1 × 9 volt (006P) alkaline
- Packing: 12 PCS 1.6 CFT 6 KG

RDC 24040

Peugeot 205

1/24 SCALE

- Full functional vehicle for the beginner. With full stop and full steering performances. Newly designed circuit allows remarkable long running time.
- Forward, reverse, right and left turn and stopping performances.
- Extra powerful motor.
- Batteries:
Vehicle 4 × "AA" size alkaline (1.5V)
Transmitter 1 × 9 volt (006P) alkaline
- Packing: 12 PCS 1.6 CFT 6 KG

RDC 24080

Fairlady 300ZX

1/24 SCALE

- Full functional vehicle for the beginner. With full stop and full steering performances. Newly designed circuit allows remarkable long running time.
- Forward, reverse, right and left turn and stopping performances.
- Extra powerful motor.
- Batteries:
Vehicle 4 × "AA" size alkaline (1.5V)
Transmitter 1 × 9 volt (006P) alkaline
- Packing: 12 PCS 1.6 CFT 6 KG

RB 11400

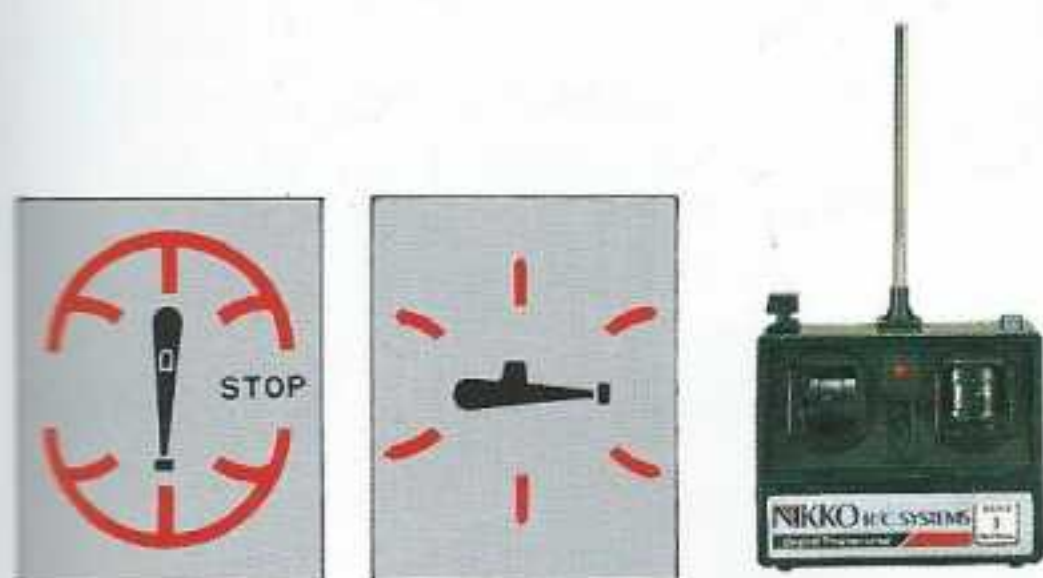

Super Submarine

1/250 SCALE

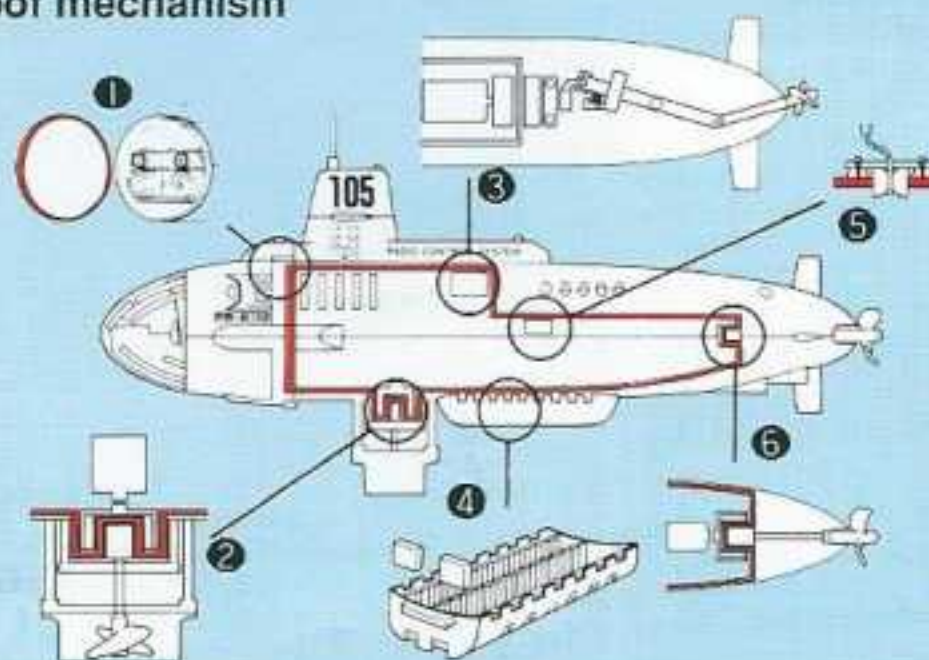

Remarkable radio controlled submarine just for you! It steers submerges and surfaces all at your command! Suitable for pool or pond, the real mighty submarine.

- 3-channel super heterodyne digital proportional system.
- Overall length: 465mm.
- Dual lever type transmitter with trim adjustment.
- Reliable steering forward and reverse, submerging in both forward and reverse and stopping performance.

- Batteries:
Submarine 6 × "C" size alkaline (1.5V) and 4 × "AA" size alkaline (1.5V)
Transmitter 6 × "AA" size alkaline (1.5V)
- Packing: 4 PCS 3.8 CFT 9.5 KG

Exploration submarine water proof mechanism

1. Battery compartment Centralized packing system.
2. Submerge propeller Magnetic clutch transmission system.
3. Rudder operation part Magnetic clutch transmission system.
4. Balancer compartment for petit balancer.
5. Antenna Plug-up packing system.
6. Propeller drive Magnetic clutch transmission system.

RB 19110

Speed Boat "Jet Tornado"

1/10 SCALE

A new experience in racing boat. Suitable for pool or pond, the real mighty cruiser!

- The products of high technology achieved high speed running for long time.
- 2-channel superheterodyne digital proportional system.
- Automatic bilge pump.
- Reliable steering-forward, reverse and stop.

- Batteries:
Boat 6 × "C" size alkaline (1.5V) and
4 × "AA" size alkaline (1.5V)
Transmitter 6 × "AA" size alkaline (1.5V)
- Packing: 4 PCS 6.0 CFT 6 KG

RB 1990N

Caribic Star "Sun Runner"

1/20 SCALE

Most of the R/C boats to be flooded with water while running in high speed that may cause capsize. This cruiser has an automatic bilge pump to pump out any water inside of hull, and dedicates to much fun.

- Twin screw system generates high speed.
- Full function: forward—right and left, reverse—right and left, stop.
- Automatic bilge pump.
- Batteries:
Cruiser 6 × "C" size alkaline (1.5V) or Ni-Cad (1.2V) and 1 × 9 volt (006P) alkaline
Transmitter 6 × "AA" size alkaline (1.5V)

● Packing: 6 PCS 5.1 CFT 10 KG

RB 19006

Speed Cruiser "Fire Star"

1/24 SCALE

- Suitable for pool or pond, the real mighty cruiser.
- Full function: forward, reverse, turns left/right and stop.
- Fire hose for water drainage (by transmitter control).
- Automatic bilge pump (operates in forward cruising).
- Safety device to prevent uncontrolled cruising.
- Recharging jack for Ni-Cad batteries.

● Batteries:
Cruiser 4 × "C" size alkaline (1.5V) or Ni-Cad (1.2V) and 4 × "AA" size alkaline (1.5V)

Transmitter 1 × 9 volt (006P) alkaline

● Packing: 6 PCS 4.5 CFT 8.5 KG

RB 1905

Christina

1/24 SCALE

Suitable for pool or pond, the real mighty cruiser!

- Full function: forward—right and left, reverse—right and left, stop.
- Automatic bilge pump.

● Batteries:

Cruiser 4 × "C" size alkaline (1.5V) or Ni-Cad (1.2V) and 4 × "AA" size alkaline (1.5V)

Transmitter 1 × 9 volt (006P) alkaline

- Packing: 6 PCS 4.5 CFT 8.2 KG

RB 99700

Dolphin

1/30 SCALE

- Runs forward, reverse, turns left and right in forward, stop.
- Designed for pool and pond.

● Batteries:

Boat 6 × "AA" size alkaline (1.5V) or Ni-Cad (1.2V)

Transmitter 1 × 9 volt (006P) alkaline

- Packing: 12 PCS 3.3 CFT 8 KG

018054

Wire Control Turbo Eagle

1/18 SCALE

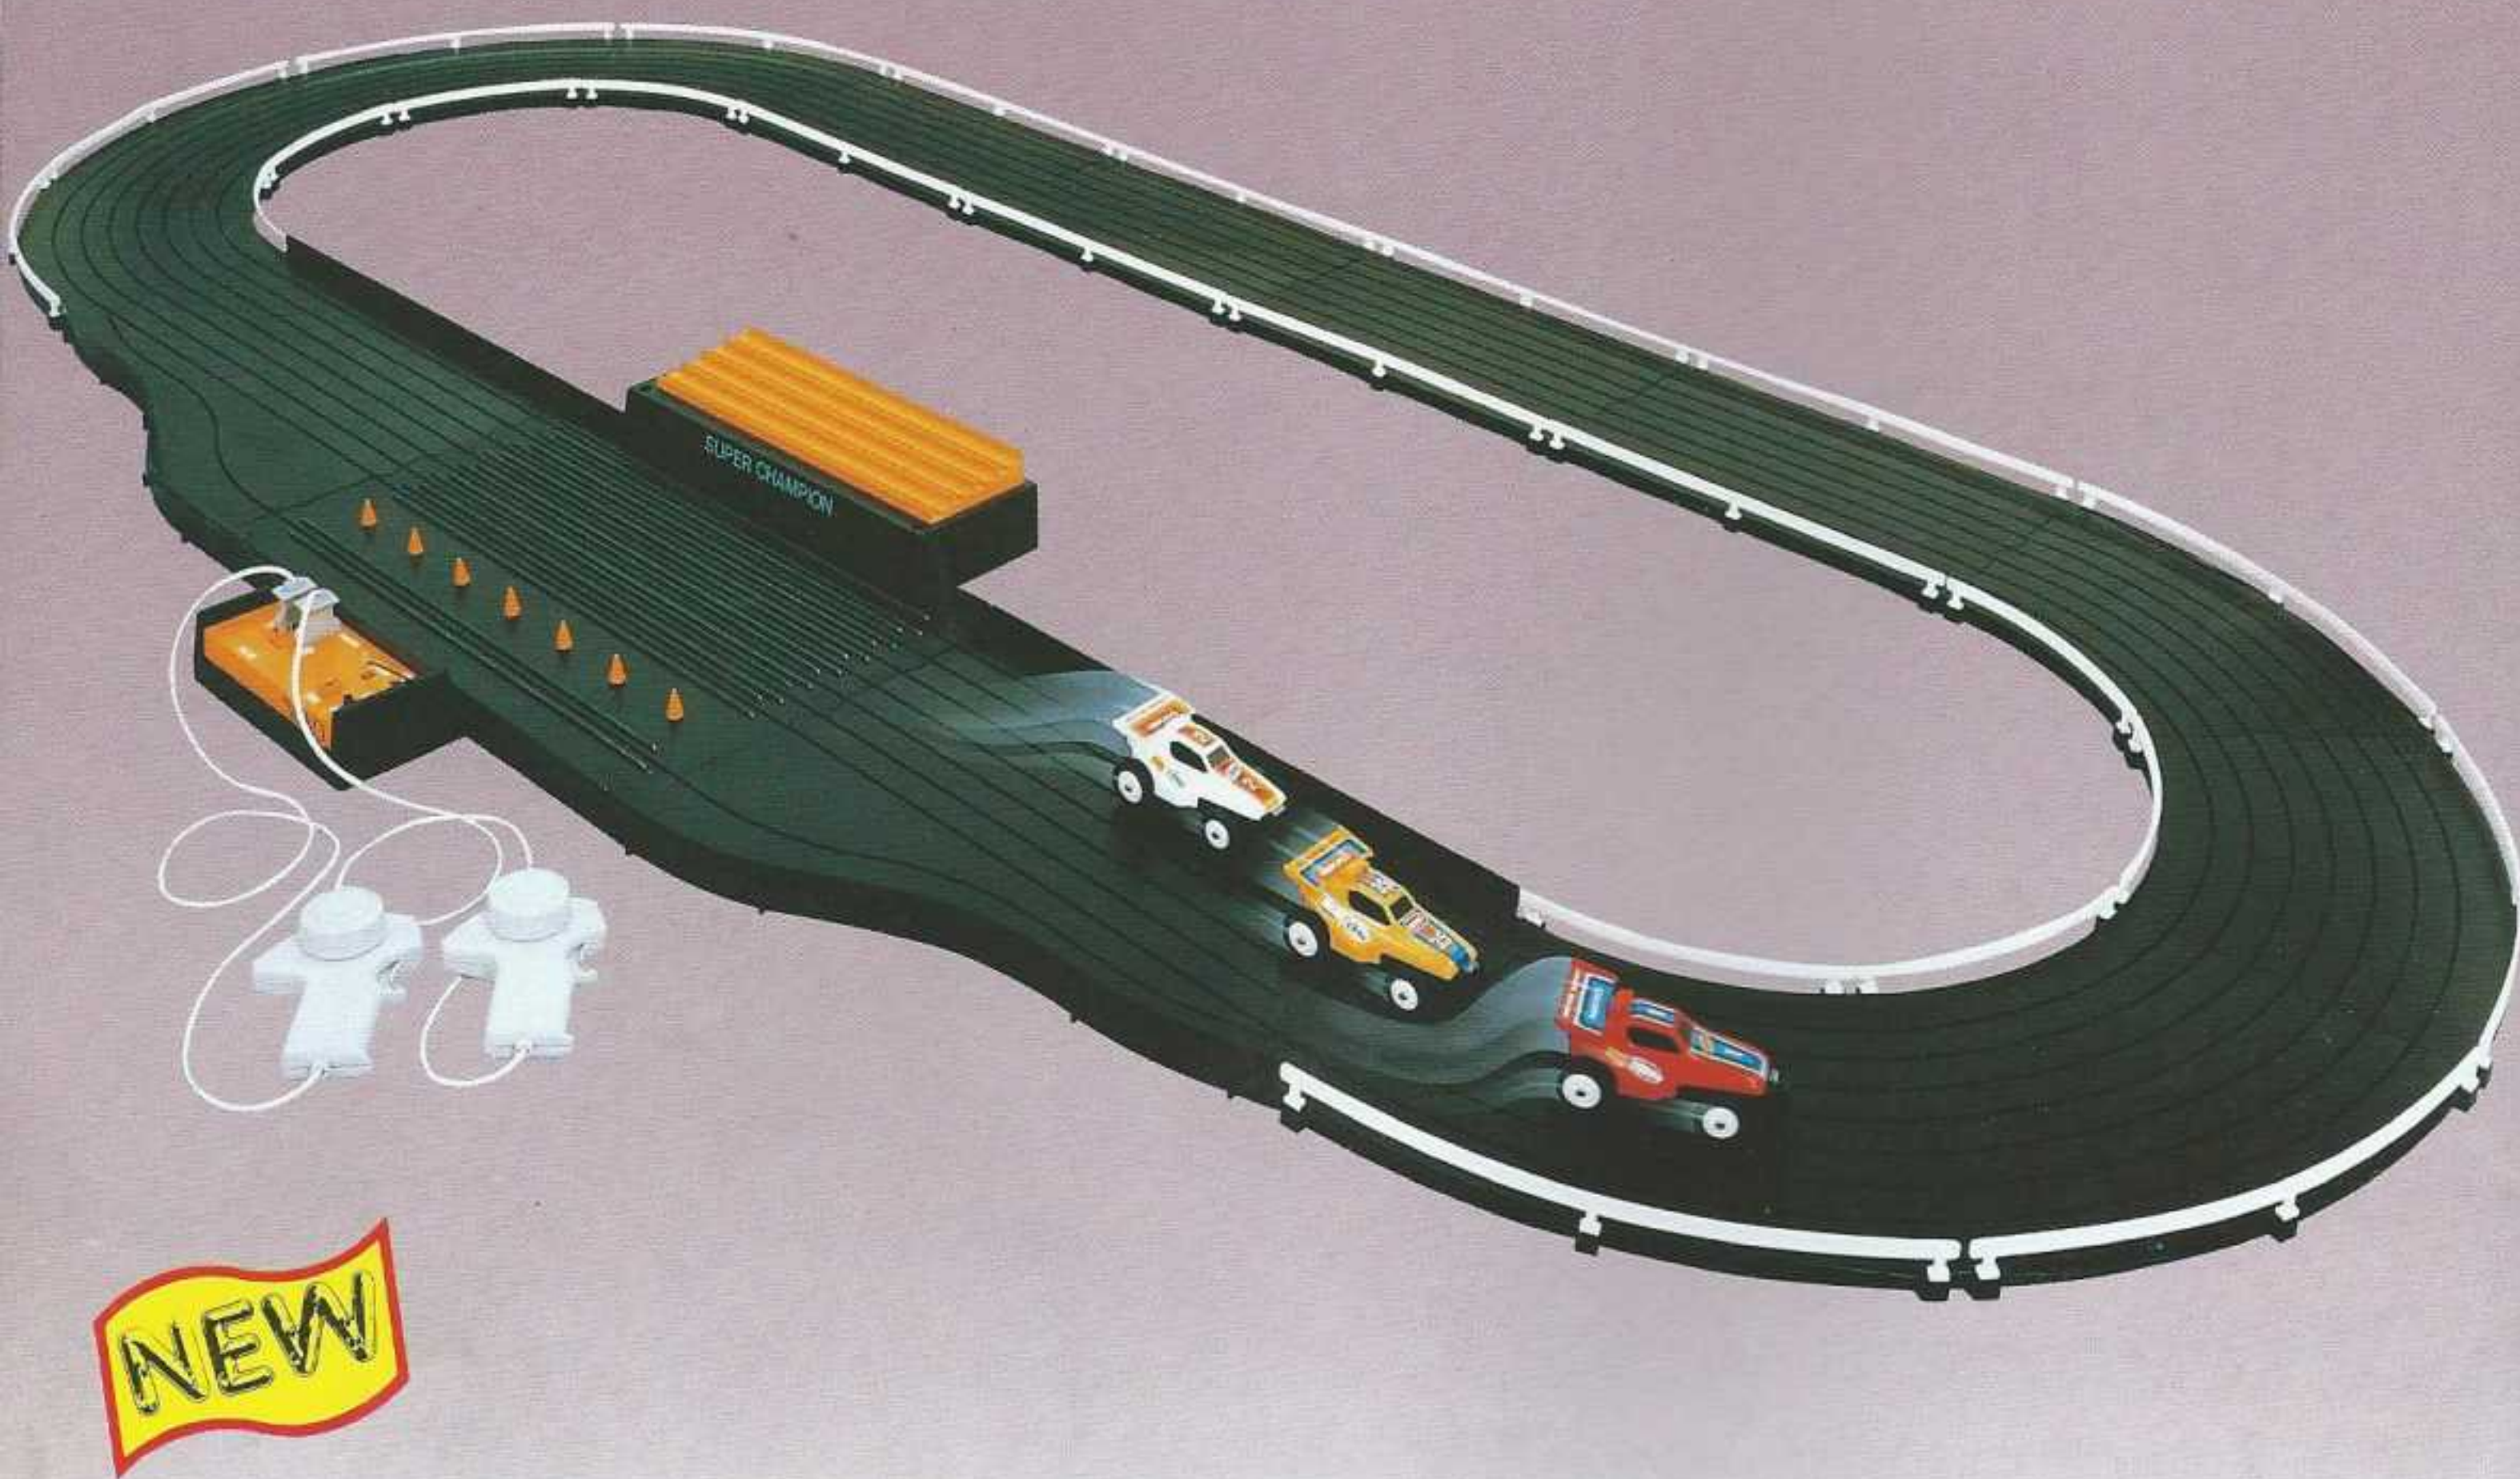

Remote control frame buggy for the beginners with joystick control for reliable performance.

- Forward, reverse, right and left turns and stop.
- Engine noise.

- Batteries: 4 × "AA" size alkaline (1.5V)

- Packing: 12 PCS 3.0 CFT 9 KG

RDC 60400

Racing Set "Champion"

- Electromagnetic R/C method enables sharp steering action. Passing is possible anywhere on the race track (except the terminal track).
 - Goes forward, wheels to the right or left and stop.
- Off-road racing buggy: (Super charge method Ni-Cad battery built into body of vehicle)
 - Control car...High-speed pit-in recharging
 - Free car...Continuous driving made possible by ultra high-speed automatic recharging while passing through the terminal track.
- Wheel-type controller
 - Steering and throttle operate independently.
- Electric power: operates by 8 × "D" size alkaline batteries or household outlet (AC adaptor)
- Packing: 4 PCS 5.5 CFT 10 KG

RDC 70110

Han-D-Bot

- Arm picks up, lifts and puts down objects by transmitter control.
- Forward (straight) and reverse (left turn) travelling.

● **Batteries:**

Vehicle 4 × "AA" size alkaline (1.5V)
Transmitter 1 × 9 volt (006P) alkaline

- **Packing:** 12 PCS 2.8 CFT 9 KG

Push the button
for arm's movement

Chargers, Battery Pack

1210

Nickel Cadmium Battery Pack (7.2V-1200mAh, 6N-1200SC)

- This rechargeable battery pack contains 6 Ni-Cad batteries aligned vertically within the pack.
- If properly used, the pack can be recharged and used over 300 times.

1215

Quick Charger

- Use 12V cigarette lighter socket of automobile as power source.
- Recharge 7.2V, 1200mAh standard pack in just 15 minutes.

1220

Slow Charger

- The charger requires 10-13 hours to completely recharge the battery pack.
- Capable to recharge "AA" and "C" size Ni-Cad batteries.
